

COVID-19 Business Update

Maryland Department of Health

March 18, 2020

Agenda

- ❖ Opening Remarks
 - Russ Strickland, Director, MEMA
- ❖ Status of COVID-19 in the State
 - Dr. Clifford Mitchell, MDH
- ❖ Business Operations
 - Kelly M. Schulz, Secretary of Commerce
- ❖ Labor and Employment Issues
 - Tiffany P. Robinson, Secretary of Labor
- ❖ Closing Remarks
 - Allegra Tartaglia, MEMA

COVID-19

Basic Facts

Basic Facts

- ❖ *Coronaviruses* are a family of viruses that cause disease in animals, humans, including the common cold, severe acute respiratory syndrome (SARS), and Middle East Respiratory Syndrome (MERS)
- ❖ COVID-19 is a new or novel coronavirus, also called SARS-CoV-2

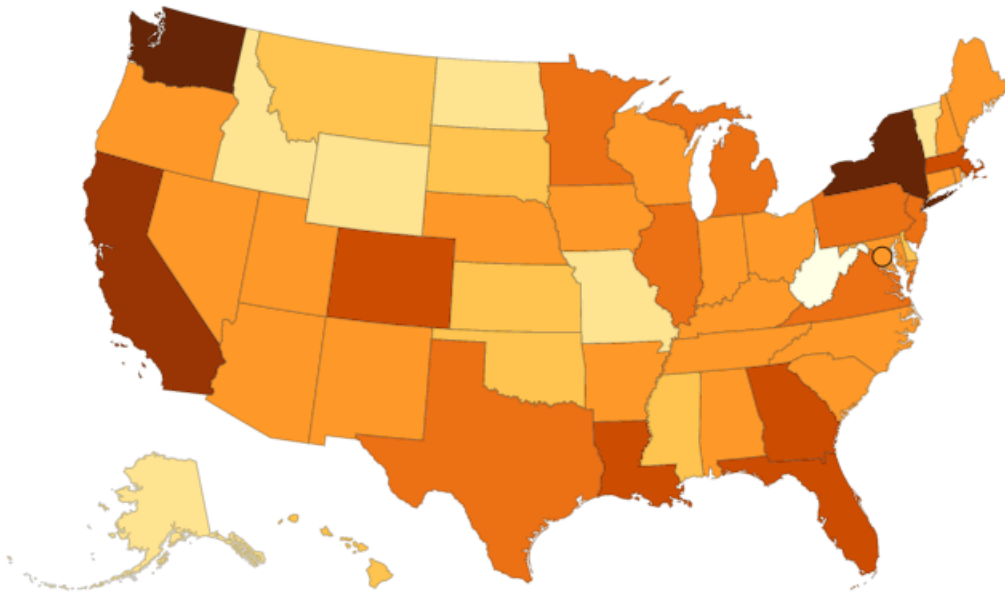

Transmission and Symptoms

- ❖ Spreads person-to-person, primarily through respiratory droplets (cough, sneeze)
- ❖ Can be picked up from surfaces
- ❖ Incubation period: 2 – 14 days, 5 days on average
- ❖ Symptoms:
 - Fever, cough, shortness of breath; some GI symptoms

Reported Cases in US as of 3/17/2020

Territories AS GU MH FM MP PW PR VI

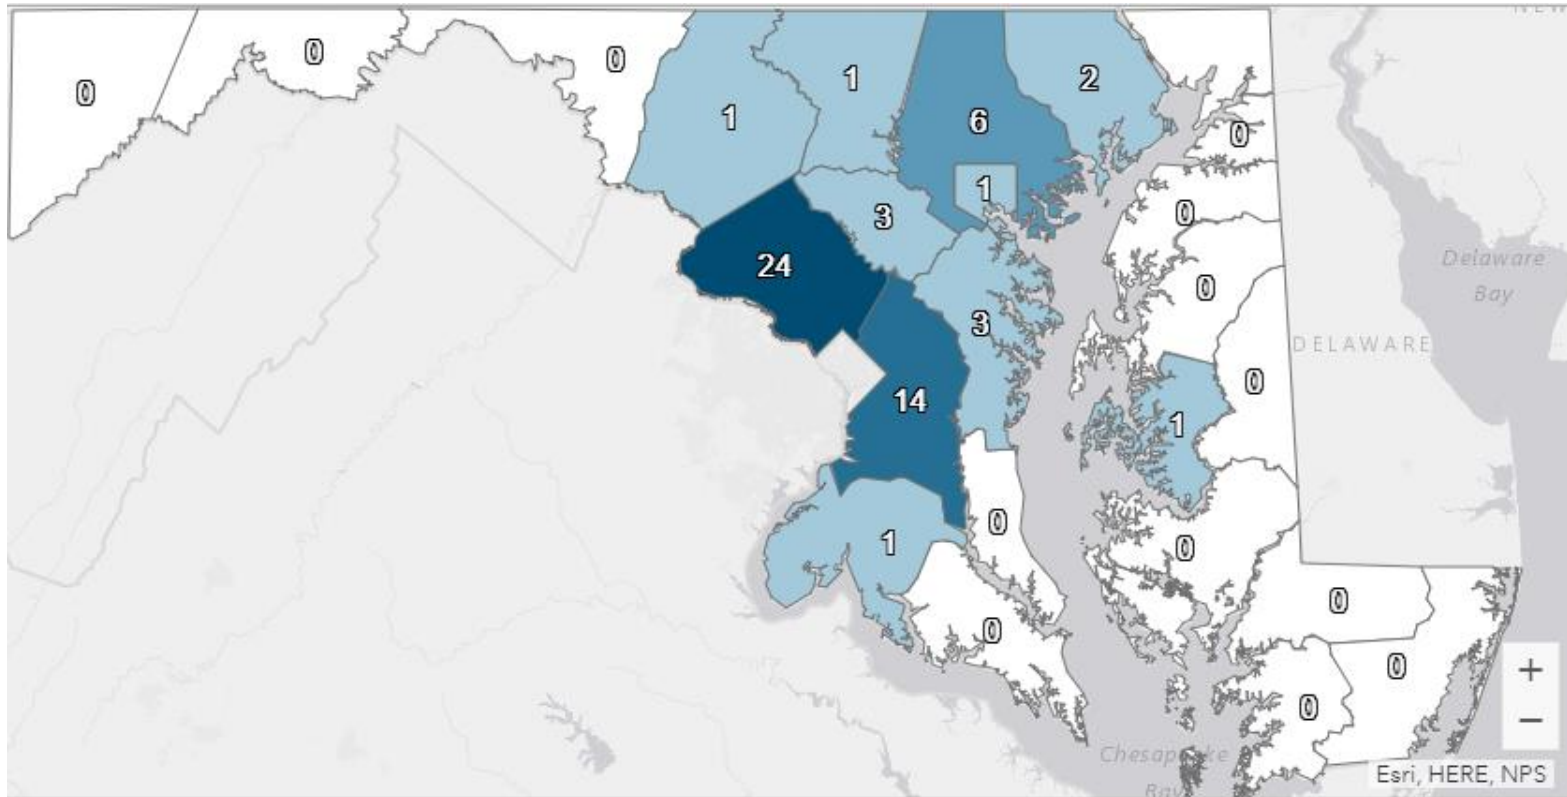

Reported Cases

○ None ○ 1 to 5 ○ 6 to 10 ○ 11 to 20 ○ 21 to 50 ○ 101 to 200 ○ 201 to 500

- ❖ 4,226 cases reported to CDC
- ❖ Underestimate of actual cases due to testing challenges
- ❖ Number of actual cases significant higher

Reported Cases in MD as of 3/17/2020

❖ 57 confirmed cases in Maryland

<https://coronavirus.maryland.gov/>

Epidemiology of COVID-19

- ❖ COVID-19 first identified in Asia, but now circulating globally
- ❖ First cases in Maryland identified 3/5/2020
- ❖ No one ethnic or racial group is at greater risk than others of developing COVID-19
- ❖ All age groups can be affected, though some at risk of more serious disease

Diagnosis and Testing

- ❖ Clinicians should use their judgment to determine if a patient has signs and symptoms compatible with COVID-19 and whether the patient needs testing
- ❖ Mild disease often may not require testing
- ❖ Priorities for testing in community settings include:
 - More serious illness suggesting the need for hospitalization
 - Risk of complications or more serious disease based on presence of risk factors

Risk Factors for Serious Disease

- ❖ Age > 60 years
- ❖ Heart or lung disease
- ❖ Liver or kidney disease
- ❖ Diabetes or other metabolic disease
- ❖ Immunosuppression
- ❖ Blood disorders
- ❖ Current or recent pregnancy (within 2 weeks)
- ❖ Neurologic or neurodevelopment disorders

Treatment and Prevention

- ❖ No specific medical treatment
- ❖ No vaccine at present
- ❖ Encourage influenza vaccination to prevent flu

Goals

- ❖ SLOW THE SPREAD
- ❖ PROTECT THE VULNERABLE
- ❖ MAINTAIN VITAL SERVICES
- ❖ ADJUST TO LOCAL CONDITIONS
- ❖ BE FLEXIBLE
- ❖ MAINTAIN NORMALCY IN ABNORMAL TIMES

Guidance for Communities

Social Distancing at Home

- ❖ Keep at least 3 feet from others generally, 6 feet from people who are sick
- ❖ Limit face-to-face contact
- ❖ If you have a family member who is sick, stay home as well if told to do so by public health official or health care provider (Voluntary Home Quarantine)

If You Are Sick

- ❖ Stay home except for medical care
- ❖ Separate yourself from other people and animals
- ❖ Call ahead before seeing the doctor
- ❖ Wear a facemask *if you are sick**
- ❖ Always cover your cough and sneezes
- ❖ Don't share household items
- ❖ Clean your hands, "high-touch" surfaces often
- ❖ Monitor your temperature and symptoms

*Facemasks are NOT recommended for people who are well or without symptoms

Guidance for Non-Health Care Businesses

State Actions to Slow Transmission

❖ Governor's Executive Orders and Related Actions:

- 3/5/2020 – Declares state of emergency
- 3/12/2020 – Limits on mass gatherings (> 250 people); also closure of cruise terminal at Port of Baltimore; extends licenses and permits until 30 days after end of state of emergency; activates level II of State Pandemic Influenza Plan for State employees
- 3/15/2020 – Casinos, tracks closed
- 3/16/2020 – Gatherings of > 50 people prohibited
- 3/16/2020 – MSDE closes all schools through 3/27/2020
- 3/16/2020 – Bars and restaurants closed

Prevention Strategies at Work

- ❖ Routine environmental cleaning, especially “high-touch” surfaces
- ❖ Communicate openly with employees about COVID-19 – avoid stigma towards staff, customers
- ❖ For employees who are traveling:
 - Check [CDC Traveler’s Health Notices](#) for guidance related to travel
 - Advise employees to take their temperature, not travel if they are feeling sick
 - Employees on travel should notify employers and refrain from travel while feeling sick

Personal Protective Equipment (PPE)

- ❖ Employees who are not sick do not need to wear masks or respirators – CDC does not recommend these (except in health care settings)
- ❖ Other PPE should be based on risks for infectious disease generally (gloves for food handlers, etc.), not specifically for COVID-19
- ❖ Employees who are sick should not be at work, whether with a face mask or not – in exceptional circumstances, employees who are symptomatic should wear a face mask to reduce droplet transmission

Social Distancing at Work

- ❖ Limit close face-to-face work generally
- ❖ Adopt strategies to promote social distancing among staff, clients
- ❖ Consider alternatives to in-person meetings
 - Encourage conference calls, telework wherever possible, especially when recommended by public health officials

Strategies for Employers

- ❖ Employees who become sick should be isolated, sent to medical or sent home
- ❖ Encourage sick employees to stay home:
 - Promote policies that encourage employees to stay home when they or family members are sick
 - Encourage companies that provide contractual employees to adopt these policies

Return to Work

- ❖ People diagnosed with COVID-19 (confirmed by testing or based on clinical assessment and guidance)
 - Minimum of 7 days after symptom onset AND
 - No temperature of 100.4° F [38° C.] or greater for 72 hours (no antifever medication like acetaminophen) AND
 - Other symptoms substantially improved (cough may persist for 1 – 2 weeks)
- ❖ No need for a “clearance” or post-illness test
- ❖ Employers should not require a health care provider’s note or any COVID-19 test for employees to return to work
 - Healthy people should not and will not be able to see providers and most people will not be tested

Environmental Cleaning

- ❖ Cleaning should emphasize “high-touch” areas
- ❖ EPA list of disinfectants registered for use against COVID-19 (SARS-CoV-2) available at:
<https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>
- ❖ CDC interim guidance for cleaning in homes with suspected or confirmed COVID-19
<https://www.cdc.gov/coronavirus/2019-ncov/community/home/cleaning-disinfection.html>

Continuity of Operations Plans and COVID-19

- ❖ Review HR policies and practices to ensure consistency with laws, health department guidance
- ❖ Adopt policies where possible to promote social distancing, flexible work practices, including telecommuting
- ❖ Clearly identify triggers for activating COOP
- ❖ Ensure communications in place to rapidly notify personnel of changes in situation
- ❖ Be aware of other events that may affect operations/staffing (e.g., child care, school closures)
- ❖ Monitor travel status of employees

Kelly M. Schulz, Secretary of Commerce

Business Operations

Information for Businesses
