TEACHER EXTERNSHIP PROGRAM

FOR MARYLAND PUBLIC HIGH SCHOOL EDUCATORS

Extraordinary educators. Innovative businesses. Maryland's future workforce.

The Maryland Chamber Foundation's Teacher Externship Program is an immersive four-week summer program that builds the bridge between businesses and educators by pairing high school teachers with top Maryland businesses who provide hands-on experience in industries related to the subjects they teach. These teachers become *architects of opportunity*, bringing this knowledge back to the classroom and empowering their students with the information and skills needed for future careers.

Host and sponsor a summer externship for a high school STEM teacher in 2022!

Teachers receive a 4-week onsite business experience, up to 4 continuing professional development credits and a lasting business partnership.

Students gain countless exciting lessons and activities along with access to inside career and industry knowledge.

Businesses have the opportunity to participate and engage in the workforce development process.

Other host company benefits: company logo displayed on Teacher Externship page on the Maryland Chamber website, 3 social media posts, mentions in 2 press releases and tickets to the Teacher Externship Celebration in Fall 2022 to honor our teachers and host companies.
